Print your cards and badges **on demand**!

The printer that delivers personalized cards in small runs

Tattoo²

Tattoo2 is the ideal solution for printing single-sided cards, individually or in small runs. **Tattoo2** is a multi-feature printer that prints texts, logos and barcodes in less than a minute, in color or monochrome, and can also encode magnetic stripes.

Designed to deliver a few hundreds of cards per year, **Tattoo2** offers an attractive quality / price ratio, and outperforms all other competing printers.

COMPACT AND SMART

Tattoo2 is a compact printer, with a size no larger than an A4 page. It can easily be deployed behind a counter or on a reception desk.

Tattoo2 comes with a detachable card feeder and with a front side feeding mode to personalize cards by the unit.

APPLICATIONS

Users who are looking for a simple and high-quality solution for their badges will adopt **Tattoo2**. Today, hundreds of small businesses, retail shops, clubs, associations, cities and schools rely on **Tattoo2** to deliver:

- Employee badges
- Membership cards for clubs and associations
- School cards
- Customer and loyalty cards
- Library cards
- Business cards
- Cards for youngsters or seniors

BENEFITS

Simple and user-friendly

Tattoo2 is both easy to install and easy to use. No training is necessary to run the printer.

All operations and maintenance tasks such as cleaning the printer, replacing a ribbon or reloading cards were therefore made effortless for the user.

A compact and follow-me printer

Tattoo2 is the most compact printer in its category. Its travel case, available as an option, makes it possible to carry this light-weight printer wherever you go, and use it whenever needed.

From basic to advanced cards

From thin cards to thicker payment cards, **Tattoo2** supports all your requirements. **Tattoo2** prints on plastic when long-lasting cards are required, but also on paper when your budget is tight.

Professional options

With **Tattoo2**, you can issue professional badges, with a resolution of 300 dpi, and benefit from a TCP/IP port, available as an option. **Tattoo2** also supports multiple magnetic encoders.
